Parkland, FL -- LotteryTool's popular Lucky TicketScratcher™ is on shelves now in five fun new colors! The tool, which makes scratching lottery tickets easier, faster, and more fun for players, is now available in Tangerine Orange, Lemon Yellow, Plum Purple, Cherry Red, and Lime Green.

Hundreds of Lottery retail outlets across the country have stocked the new product! Dedicated lottery players have become dependent on the handy tool and love the vibrant new assortment of colors. Demand for the product is overwhelming!

With a contemporary, sleek look with a textured grip that makes it comfortable to hold and use, Lucky TicketScratcher is made of an unbreakable glass-composite material with a self-sharpening, scraping edge that guarantees a lifetime of use. The tool's edge has been specifically designed to remove lottery ticket coatings without damaging the ticket, allowing players to cleanly scrape off small and large areas of any lottery ticket with ease.

The lightweight compact tool prevents broken fingernails when scratching tickets and replaces awkward coins, clumsy car keys and dangerous blades. As an added bonus, the tool can also be used as a pop top can opener and box tape cutter. The tool is also airport safe.

Any merchants who don't know about this product will be eager to stock up! Lucky TicketScratcher tools are just \$0.56 each with a suggested retail price of \$1.39. That's over 200% profit!
